Special Session

Global Programs and Conventions: Coherence and Mutual Synergies from Holistic Information Management

The UN Declarations and other UN Instruments texts increasingly enforce the demands for coherence and mutual synergies.

There is special emphasis on defining the basic elements of coherence, consequences for holistic information management across programs and conventions and rises awareness on the key role of information governance needed to foster of cross-domain and cross-organizational national as well as international implementations.

Timeliness implementations guided by the principles of holistic information management are key prerequisites in societal, natural, technical, humanistic and ethical aspects for the future of people and planet.

Main topic: Coherence and Accountability improvements for Information Society

Reference paper: https://tinyurl.com/GlobalProgramsCoherence2020
